

New Pages, New Pictures

randall, Wednesday 26 January 2011 - 21:15:35

[Anchor Bolts](#) finally has a page made for it. Listing sizes and type in an alternating colored table.

Using the same format, i created the [Stab Bolts](#) page (SSTB##).

I have created an icon to replace the filler leaf next to Delano Supply.

[Flagging Tape](#) was never listed on here, this was discovered when trying to add a picture to the page. It has now been created and has a photo of them. [Caution/Danger Tape](#) also has a photo attached to it.

The search function now works properly and will strictly search the product pages. Before it would simply search the news by default.

New Pages

[Anchor Bolts](#)

[Stab Bolts](#)

[Flagging Tape](#) - New + Picture

[Caution/Danger Tape](#) - Picture
