

Happenings of the 30th

randall, Monday 30 June 2008 - 19:59:21

The site, <http://www.delanosupply.com/> now has a domain, that one, I guess it is now an official web site.

I have added another page to the site, and placed the link in the main menu. The page is for the [Saw Blades](#) we sell here. I will be added pictures and more pages soon. I will post new news posts when we make more pages, it is just a slow process.
